We will not be able to move vehicles inside the controlled pit area. We will be open until 9 pm on Thursday evening to assist customers in getting into their assigned spots. If you have reserved pits inside the gated area, it is strongly recommended to be moved in by Thursday at 9 pm.

Please keep RC cars and similar toys away from the paddock area. Thank you for your cooperation. These rules WILL BE ENFORCED for your safety.

ENTERING & EXITING THE RACING SURFACE: There is a new track entrance from the hot-grid. Please take note of it. It is to help make track surface safer for racers and those entering the track from the pits. Please remind your driver when exiting the track to raise their hand high so the rest of the practice group knows you are departing. Please also raise your hand if you spin to alert other drivers of the incident or your disabled kart.

SCALES: When exiting the racing surface, please do NOT drive onto the scales. Follow the stop signs and stop. Push through the scale house and meet your kart stand about 20 feet down the hill.

KART STANDS: No kart stands in the pre-grid area and move them immediately to the kart stand storage area to await the return of your driver.

GATE CLOSING TIME: The back gates will close at 9:00 PM and re-open at 7:00 AM.

SECURITY: Enforcement security will be on-site for safety, but the track is not liable for theft or damage. Please lock up your belongings. We ask that you gather all your family around your camping area by 10 PM. This insures a quiet and peaceful night at the race track.

TRASH PICK-UP / PIT AREA CLEANLINESS: Make sure your pit area remains clean and tidy throughout the weekend. Please treat our property as if it were a park. We really appreciate everyone pitching in and keeping their pit areas clean. If you have large boxes please do not stick them inside the trash barrels just sit them along side your pit area and we will come along and gather up excess trash.
